RESPONSE TO REQUEST FOR ADDITIONAL INFORMATION
UNDER 37 CFR 1.105

Sir:

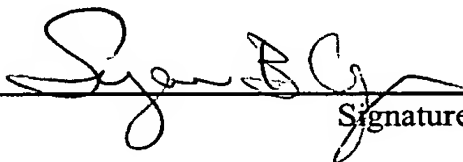

This communication is filed in response to the examiner's request for additional information under 37 CFR 1.105.

The examiner requests Applicant to provide "the citation and a copy of each publication that any applicants relied upon to develop the disclosed subject matter that describes the applicant's invention, particularly as to developing (Patient Advisor and Healthcare Analyst)". The information required by the examiner is unknown and/or is not readily available to the Applicant.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on the date indicated below.

Suzanne B. Gagnon

Name of Attorney for Applicant(s)

Signature of Attorney/Date

The examiner requests the Applicant to provide "the citation and a copy of each publication which any of the applicants authored or co-authored and which describe the disclosed subject matter of airline simulations, especially those disclosing the Patient Advisor and Healthcare Analyst products".

The Applicant respectfully submits a copy of the brochure distributed at the conference mentioned in the Sprint press release from February 18, 1997.

The examiner requests the Applicant to "state the specific improvements of the claimed subject matter in claims 1-9 over the prior art (Patient Advisor and Healthcare Analyst products) and indicate the specific elements in the claimed invention that provide those improvements. For those claimed expressed as means or steps plus function, please provide the specific page and line numbers within the disclosure that describe the claimed structure and acts."

The Patient Advisor information and demo disclosed searching for specific words found in verbatim comments to determine what a patient feels about a healthcare issue. The Patient Advisor did not perform calculations on the data or have the measurement options and graphical data displays as in the claimed invention.

The Healthcare Analyst information disclosed selecting a specific level of a hierarchical tree and viewing the numeric data of that level using standard charts. The Healthcare Analyst did not have the measurement options and the graphical data displays as in the claimed invention.

If there are any additional fees resulting from this communication, please charge same to our Deposit Account No. 16-0820, our Order No. 33033US1.

Respectfully submitted,
